LONG-ACTING INJECTION ANTIPSYCHOTIC (LAIA) PHARMACIST SERVICE SURVEY

**This survey is to help us better understand your thoughts about the pharmacist antipsychotic injection service you have been receiving from the pharmacy. Please complete whether you have received one or many injections from the pharmacist. Please put survey in envelope and seal it when you are done. This is to further help protect your confidential responses.**

For each item, please check if you feel the pharmacist provided the task the same, more than, or less favorably than the nurse in performing the following injection tasks:

- (1) Asking me questions about my symptoms (my thoughts, my mood, my behaviors) before I receive my injection.

\_\_\_ Pharmacist same as Nurse  
\_\_\_ Pharmacist more favorable than Nurse  
\_\_\_ Pharmacist less favorable than Nurse

- (2) Asking me about side effects I was having from the injections.

\_\_\_ Pharmacist same as Nurse  
\_\_\_ Pharmacist more favorable than Nurse  
\_\_\_ Pharmacist less favorable than Nurse

- (3) Providing instructions about the medication being injected.

\_\_\_ Pharmacist same as Nurse  
\_\_\_ Pharmacist more favorable than Nurse  
\_\_\_ Pharmacist less favorable than Nurse

- (4) Being prepared to administer my injection when it was scheduled.

\_\_\_ Pharmacist same as Nurse  
\_\_\_ Pharmacist more favorable than Nurse  
\_\_\_ Pharmacist less favorable than Nurse

- (5) Providing a private setting for my injection.

\_\_\_ Pharmacist same as Nurse  
\_\_\_ Pharmacist more favorable than Nurse  
\_\_\_ Pharmacist less favorable than Nurse

(6) Having proper skills to administer the injection.

- Pharmacist same as Nurse
- Pharmacist more favorable than Nurse
- Pharmacist less favorable than Nurse

(7) Giving attention to follow-up monitoring after injection.

- Pharmacist same as Nurse
- Pharmacist more favorable than Nurse
- Pharmacist less favorable than Nurse

(8) Providing reminders and support for keeping next injection appointments.

- Pharmacist same as Nurse
- Pharmacist more favorable than Nurse
- Pharmacist less favorable than Nurse

(9) Overall, I preferred:

- Pharmacist giving the injection
- Pharmacist or Nurse giving the injection, doesn't matter
- Nurse giving the injection

(10) Overall, I liked the convenience and flexibility of having a service that could involve a pharmacist and/or nurse pharmacist being available for the injection.

Strongly Agree  Agree  Not Sure  Disagree  Strongly Disagree

(11) Overall, I prefer the convenience and flexibility of a pharmacist being available for the injection over a scheduled appointment with a nurse.

Strongly Agree  Agree  Not Sure  Disagree  Strongly Disagree

(12) Overall, I think the pharmacist injection service improved my access to having my injections regularly if a nurse was not available.

Strongly Agree  Agree  Not Sure  Disagree  Strongly Disagree
