

# ACT (Academia-CPESN Transformation) Pharmacy Collaborative

## Community Pharmacy Practice Transformation Initiative: Facilitating Partnerships between CPESN® Networks and Schools of Pharmacy

**We invite you and your school/college of pharmacy to become an active member of the ACT Pharmacy Collaborative.**

The ACT Pharmacy Collaborative is an operational learning and ACTing collaborative among schools/colleges of pharmacy and clinically integrated networks of community-based pharmacies. The ACT Pharmacy Collaborative goal is to support the transformation of community-based pharmacy practice from a product-based to a pharmacy care delivery model in neighborhoods nationwide.

### The ACT Pharmacy Collaborative will:

#### Unite

Unite schools/colleges of pharmacy and pharmacist leaders nationwide with a common focus to transform community-based pharmacy practice

#### Mobilize

Mobilize stakeholders and resources to support and facilitate implementation of community-based pharmacy care

#### Amplify

Amplify the development and implementation of sustainable community-based pharmacy care delivery

### How you and your school can get involved:

- Get committed! Our Dean's Statement of Commitment, available at [www.actforpharmacy.com](http://www.actforpharmacy.com), invites schools to commit to community pharmacy practice transformation
- Identify an ACT Champion – Empower a colleague who will represent the school and facilitate partnerships with CPESN Networks and local community pharmacies as a part of the Dean's Statement of Commitment
- Invite colleagues to participate in an "activation year" – Join our year-long cadence of idea-and-action-share webinars, student initiatives, and research pop-up groups beginning August 2019 through July 2020
