

Online Health Information in Multiple Languages

MedlinePlus is the U.S. National Institute of Health's website. It provides information on diseases, conditions, and wellness in multiple languages.

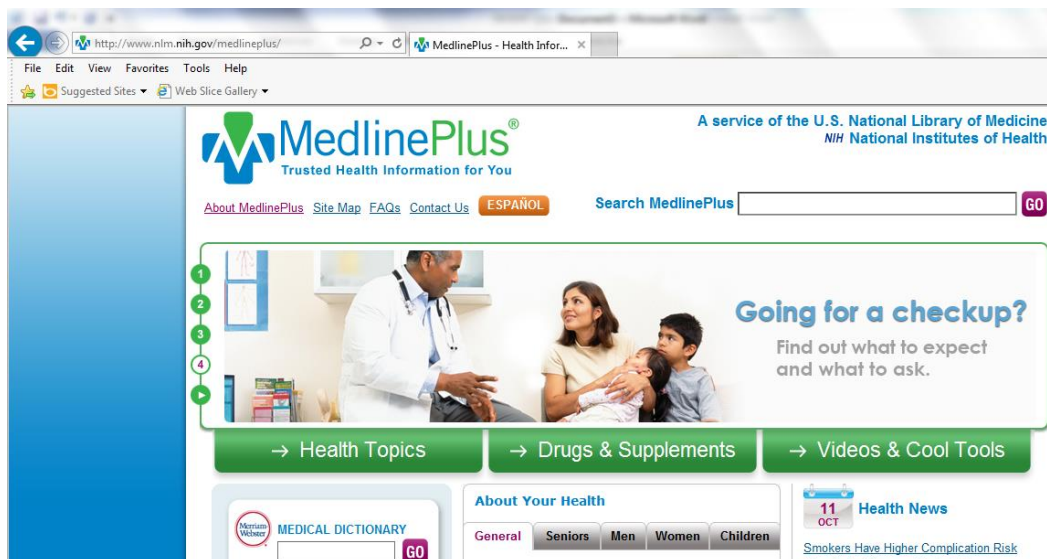

There are 2 ways to find health information in your language on MedlinePlus:

Method 1

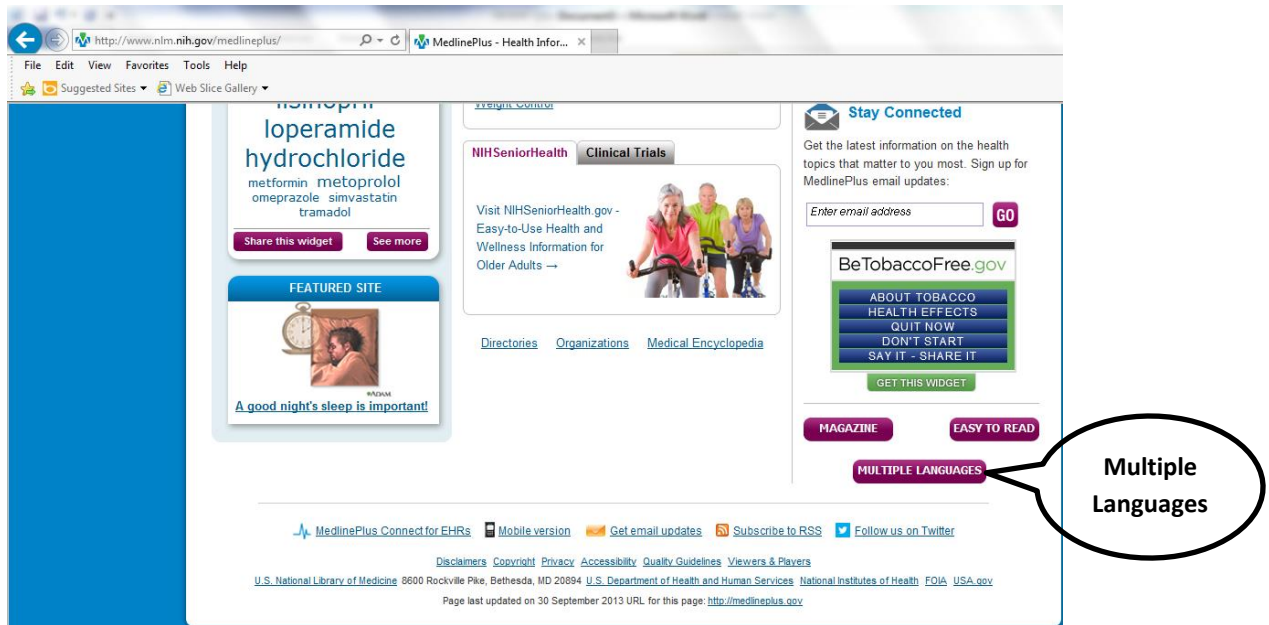

Step 1: Type in " www.medlineplus.gov" in web browser. This will direct you to the main page of the website.

Here is a picture of what the main page looks like:

Step 2: Scroll down the webpage; you will see the “Multiple Languages” button on the bottom right-hand side of the computer screen.

Step 3: Click on the “Multiple Languages” button. You will see the computer screen below.

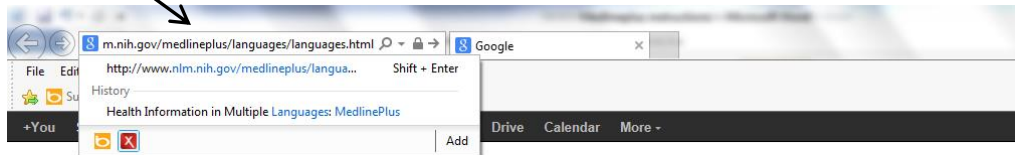

You will see a list of languages on this computer screen.

Step 4: Click on the language of your choice and you will see a list of health information in that language.

Method 2

Step 1: Type the following link into your web browser and press ENTER

<http://www.nlm.nih.gov/medlineplus/languages/languages.html>

You will see the computer screen below with a list of languages.

Step 2: Click on the language of your choice and you will see a list of health information in that language.

Health Information in Multiple Languages

Use these links to find health information in languages other than English. See our [quality guidelines](#) for how we select the links on these pages.

Browse information in multiple languages by [health topic](#).
